Royale Touche luxury laminates offers some of India's finest high pressure and compact laminates and is a pioneer of luxury laminates in the country. It was started in 1978 in Wadhwan City, Gujarat. It was founded on the idea that a laminate is much more than an invisible background. It is a resilient, flexible product that has unlimited potential in surface decor. We not only reinvented the way laminates looked, but also the way people look at laminates. We gave the laminate a complete make over with finishes and colours like never before. Suddenly the laminate was no longer just an economical, hard-wearing counter top, but a surfacing product that had texture, unparalleled designs and most importantly; character.

They featured rich, luxurious designs that added aesthetic value to interiors. They weren't just products made for architects, interior designers and end-users, but made in collaboration with them. This helped the company to create application-based collections that made it easy to match a Royale Touche laminate to the theme or colour scheme of one's room.

Each Royale Touche laminate is designed to deliver exceptional style and quality. Our laminates are manufactured at world-class facilities equipped with imported machinery from Spain and Italy. Products are created with imported design papers made from highly stable and resistant pigments which guarantee longevity and ensure that the product looks great after years of wear and tear. Each factory maintains a stock of 1500 SKU in order to achieve our 48 hour delivery promise.

Our high pressure laminates are available in over 800 designs, 100 realistic textures and 3 sizes (8x4, 10x4x2.5, 12x6). These products are conducive to both vertical and horizontal applications including furniture, laboratories, medical instrumentation, bathroom cubicles, exterior facades & outdoor furniture. They also perform exceptionally well in high traffic areas such as hospitality, office spaces, healthcare, retail and commercial spaces.
