THE FUTURE OF LAMINATES IS HERE

In recent years, interior designers have desired to get the finish of a decorative laminate as near as possible to natural wood & veneers.

Synchro laminates from Virgo Corby Mica Plus ends this long wait. We are amongst the few manufacturers of Synchro Series laminates in India.

Our existing textured laminates have been appreciated by everyone. The regular embossing ensured a unique surface on the decorative paper. Yet still, there was a lack of coordination between the background patterns of the laminate and the regular embossed texture.

Synchro laminates are crafted via a unique manufacturing technology that applies the decorative paper design in exact alignment with the plate (embossed) texture of the same grains to impart the most authentic & natural look.
