ULTIMATE PVC COLLECTION 2019

About us

The Virgo Group is a corporate entity based on the promotion and development of industry. All its group companies are well-known in their respective fields and are recognized as industry benchmarks around the world. At Virgo, a breakaway company form which the group itself was founded in 1965, long before governmental regulations concerning the permanent protection environment, Virgo Group has always remained to its environmental friendly practices. These included informative programs and promotions of the use of tropical woods and hardwoods, non-polluting materials. Keeping its mission as a philosophy, the group Virgo today has a diverse group of businesses generating opportunities through excellence of services, innovations, expertise and experience.

1.2mm (± 10%) [Standard]
Sheet Size: 1220mm x 2440mm [Standard]
Size Option: Length-Any [On Request]
Width-Upto 1220mm

Range: Our PVC Laminates are available in a variety of range. Customized sizes & shades can be developed on request.

Adhesive: These laminates are easy to apply with the standard laminating system, including most of the conventional adhesives normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.

Lamination: Proper Substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board, high quality Fiber board or PVC board. The Face of the substrates must be smooth and free of grease, wax, dust, chips and other foreign matter. Application will spoil the originality and natural beauty of the High Gloss PVC Flexible Sheets.

Cutting & Installation: These High Gloss PVC Flexible Sheets can be cut, routed and drilled, with most standard wood working tools or equipment. All blades must be sharp, to remove any burrs that may occur in the cutting process we recommend the use of a smooth file to feather all corner edges.

Bending and Forming: These laminates can be bend and all radius bending should be handled in the same manner as all grades of non post forming decorative laminates.

Use only V-Groove cutter to bend the sheets at 90 Degree. In case of any difficulty, please contact us.

Maintenance: Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the High Gloss PVC Flexible Sheets. We recommend to use only clean water for cleaning of sheets.

Note: Virgo warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any claim, the liability of the company is only limited to the cost of the product only. There may be color variations from batch to batch. The sample swatches in the catalogue represents the designs, colours and finishes. They do not represents the actual sheet.

Kindly remove the protective film with in 7 days of installation of laminates.
